

INTERNATIONAL ASSOCIATION OF MINECRAFT ARCHITECTS

OFFICIAL STATEMENT TO THE FEDERAL REPUBLIC OF KUNASIA

15th January 2019

To whom it may concern,

The IAMA strongly condemns the Federal Republic (FR) of Kunasia for its acts of plagiarism and intellectual property theft against two of our members, the Confederate Archipelagic States of Avrin (CASA) and NXUS. We believe such acts are immature, disrespectful, and damaging to the wider community.

Acts of plagiarism discourage content creators to making new content, as their hard work is likely be stolen and taken advantage of. This has caused a major decline in the number of content creators in recent years according to multiple prominent build teams internationally, followed by the quality of the content, and the reputation of the Minecraft community.

While the organisation does not have jurisdiction over the actions of FR Kunasia as it is no longer a member of the IAMA, we expect FR Kunasia to remove the said plagiarised builds immediately out of respect for the affected content creators, integrity, and basic human decency.

Regards,
Executive Council
