

INTERNATIONAL ASSOCIATION OF MINECRAFT ARCHITECTS

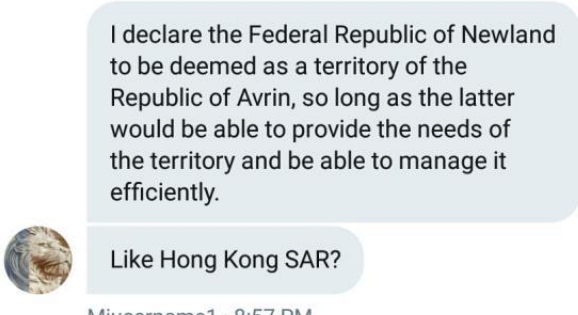

OFFICIAL STATEMENT TO MR. SAMUEL KIM

13th June 2018

Dear Mr. Kim,

The IAMA strongly condemn your act of impersonation against one of our members, the Commonwealth of Newland.

While we understand that you are fundamentally a fan of the map and did not mean to disrespect the map maker, we hope you recognise the fact that Newland is under Avrinian rule since the conference on the 23rd October 2017, where the former president of the Federal Republic of Newland, the original creator of the map, issued a statement saying, “*the Federal Republic of Newland (is) to be deemed as a territory of the Republic of Avrin*”. (See figure) As a fan of the map, we hope you would abide to the map maker’s will, and recognise the Republic of Avrin to be the sole legitimate successor of the map.

I declare the Federal Republic of Newland to be deemed as a territory of the Republic of Avrin, so long as the latter would be able to provide the needs of the territory and be able to manage it efficiently.

Like Hong Kong SAR?

Miusername1 · 8:57 PM

We are also very disappointed in the intergovernmental organisation that you were admitted to, for they have failed to check whether if you are the legitimate creator of the map. We recommend that you may attempt to join the respective organisation as an “independent member”, or its equivalent, the same way you applied to join the IAMA, as it would mean that you do not claim a specific map. Alternatively, you may also set up your own Minecraft state—with what you have sent us during your application, we feel confident that you have the ability to set up an original nation of your own in Minecraft. Despite your application being rejected after a majority vote, a number of our members felt that you had the potential.

Once again, while we admire your determination to revamp the map of Newland, we hope that you would respect the map maker’s will, and thus, the Republic of Avrin’s sovereignty on the Commonwealth of Newland.

Regards,

Executive Council of the IAMA
