

INTERNATIONAL ASSOCIATION OF MINECRAFT ARCHITECTS

OFFICIAL STATEMENT TO THE COMMONWEALTH OF AUSTRALIA

16th September 2018

Dear Mr. HairyToad,

It is with the deepest regret that we inform you that the Human Resources Division of the IAMA General Assembly has voted to fail your internship. This means that as of today, you are no longer a member of the IAMA and will not be able to participate in any proceedings within the internal bodies of the organisation, in accordance to Chapter III, Section 2, Article 3 of the Charter of the IAMA.

This decision, however harsh it may be, could be justified by mainly two factors. Firstly, our members have failed to see any improvement from you in terms of your general conduct, and activity, even after your demotion, caused by multiple offenses to the Code of Conduct previously. Not only have you provoked members of the IAMA numerous times after your demotion, you have shown little signs of activity, both in-game, and on the Discord channel.

Secondly, we were shocked, and disappointed by the fact that despite claiming to be “Australia”, you lacked a flagship map in which you work on. There is little transparency in pertain to your progress and for such we do not see how you may be beneficial to the IAMA; or how the IAMA may be beneficial to you. It is paramount that members openly discuss their in-game progress because, as mentioned in the preamble of the Charter, the IAMA acts as a forum, and forums work best only when its members are willing to participate in constructive discussions.

We hope you understand the reasons behind this decision and we wish you all the best in your future developments in Minecraft.

Regards,

IAMA Executive Council
